ABOUT ME

Front-End Web Developer with 3 years of experience building modern, responsive, and accessible web interfaces. Specialized in React, Next.js, TypeScript, and Tailwind CSS, with a strong focus on responsive design, UI best practices, and user experience. Experience working with REST APIs, component-based architecture, and real-world projects, both academic and professional.

EXPERIENCE

Junior Front-End Developer

Clostech Startup | september 2023 – december 2024

- Developed web interfaces using React, Next.js, and TypeScript.
- Built an enterprise portal to manage APIs and customize components used on Tiendanube pages.
- Integrated and consumed REST APIs.
- Implemented responsive designs following mobile-first principles and UI best practices.
- Optimized user experience and performance across different devices.
- Organized code using reusable components.

Academic Project – Junior Web Developer

Novath | march 2023 – november 2023

- Developed a web application for theater ticket sales.
- Implemented two interfaces: User-facing website with registration, login, and ticket purchasing and admin panel for managing events and users.
- Developed CRUD functionalities using PHP and MySQL.
- Implemented authentication and access control.
- Built interfaces using HTML, CSS, and JavaScript, applying responsive design and partial use of Bootstrap.

Internship – Salesforce Developer (OmniStudio)

BDT Global | august 2023 - december 2023

- Developed OmniScripts using Salesforce OmniStudio to create interactive flows.
- Implemented Lightning Web Components (LWC) for building and designing custom components.
- Modeled a quotation flow for musical instrument insurance, allowing: selection of instrument type, quote calculation based on defined parameters and data persistence within Salesforce
- Developed server-side logic using Apex.
